

NYC ACCELERATOR FOR A CLEAN AND RENEWABLE ECONOMY VIRTUAL SERVICE GUIDE

NYC ACRE VIRTUAL OFFICE SERVICES

The New York City Accelerator for a Clean and Renewable Economy (NYC ACRE) helps clean technology and renewable energy companies in New York City grow, advancing the City as a role model for environmental sustainability and smart growth.

Join a community of physical and virtual tenants, working across the cleantech spectrum, sharing ideas and relationships to help build a stronger New York City. If you're providing solutions to climate and energy issues while growing the cleantech/renewable energy sector in NYC, we want to help take your business to the next level.

Our virtual offer will help you manage day to day tasks as well as capitalize on key strategic resources; relationships with the NYC Economic Development Corporation, NYSERDA, the New York City Investment Fund, and key university partners. We help entrepreneurs commercialize innovation and connect them to markets, making New York City one of the most sustainable cities in the world.

SERVICES DESIGNED TO MEET YOUR NEEDS

NYC ACRE's virtual offer is complementary to the way you work: mobile and flexible, enabling you to interact with clients and co-workers without being tied down to a specific location.

Whether you're **meeting with a new client or investor** and want to make the best impression, **seeking ideas and opportunities** through collaboration with other **cleantech pioneers and experts**, or looking to tap into the wealth of **NYSERDA incentives and resources** in New York City, NYC ACRE will fuel your growth.
